

STIMVET 2000

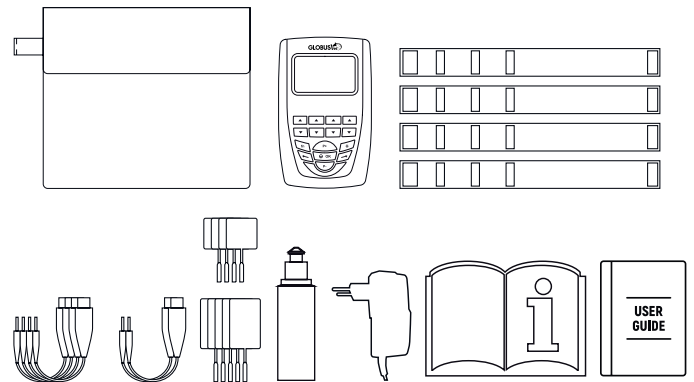

ELECTROTHERAPY 4 CHANNELS

TECHNICAL FEATURES

Display
Size 2.6", backlit
Channels
4 independent (8 electrodes)
Frequency
1-150Hz
Pulse amplitude
50-450µs
Intensity
100mA per channel
Power supply
- Mains
- Battery pack
Size
100x160x35 mm
Weight
440 gr

EQUIPMENT

- 1 Bag
- 1 STIMVET 2000 unit
- 2 Grey cables for microcurrents
- 4 Colored cables for electrode connection
- 4 Silicon square electrodes
- 4 Silicon rectangular electrodes
- 4 Elastic bands
- 1 260 ml gel bottle
- 1 Power supply unit
- 1 Operating manual
- 1 User's guide

- TENS
- NMES
- MENS
- DENERVATED
- RUN TIME
- LAST 10
- FAVORITES
- MULTI USER
- PROGRAMMABLE
- STIM LOCK
- 2+2 FUNCTION
- SYNCRO STIM
- BATTERY PACK
- MAIN SUPPLY

STIMVET 2000

ELECTROTHERAPY 4 CHANNELS

Rev. En_09_2019

PROGRAMS LIST

DOG

REHABILITATION

Recovery after ACL surgery

Contractures

Atrophy recovery 1 - 2

Muscle rebuilding 1 - 2

Reinforcement 1 - 2

Motor Point Pen

Agonist / Antagonist

TENS

Endorphinic TENS

Conventional antalgic TENS

Anti-accommodation modulated TENS

Post-surgical pain

Fracture pain

Osteoarthritis

Wobbler syndrome

Discopathy

Spondylarthritis

Lumbosacral stenosis

SPORT

Forelimbs maximum strength

Hindlimbs maximum strength

Forelimbs endurance strength

Hindlimbs endurance strength

Forelimbs explosive strength

Hindlimbs explosive strength

Decontracting

Cooling down

DENERVATED

Triangular 1 - 2 - 3

Rectangular 1 - 2 - 3

Trapezoidal 1 - 2 - 3

MICROCURRENTS

Osteogenesis

Wound cicatrization

Cartilage

CAT
